Defendants.

DEBTORS' COMPLAINT FOR INJUNCTIVE RELIEF

Endo International plc and its debtor affiliates, as debtors and debtors in possession (collectively, the "Debtors") and, together with their non-debtor affiliates, the "Company") in the

above-captioned chapter 11 cases (the “Chapter 11 Cases”), and as Plaintiffs in the above-captioned adversary proceeding, allege for their Complaint (this “Complaint”), upon knowledge of their own acts and upon information and belief as to other matters, as follows:

NATURE OF THE ACTION

1. This adversary proceeding is brought pursuant to Rules 7001(7) and 7065 of the Federal Rules of Bankruptcy Procedure (the “Bankruptcy Rules”) and section 105(a) of title 11 of the United States Code (the “Bankruptcy Code”) to enjoin, for a period of 270 days from the issuance of the injunction, the judicial, administrative, and other actions and proceedings pending against the Debtors² brought by numerous governmental entities including but not limited to states, counties, cities, municipalities, public hospitals, school districts, and Native American tribes (the “Governmental Defendants”), which are identified in Exhibit A to this Complaint (the “Covered Actions”), as well as the commencement or continuation of any new judicial, administrative, and other actions and proceedings alleging substantially similar facts or claims for relief.³

2. The Debtors enter these Chapter 11 Cases with a framework in place to preserve and maximize the value of their estates, to provide funding for these Chapter 11 Cases and the Debtors’ ongoing operations, and to provide creditors with a transparent restructuring process. That framework is reflected in the binding restructuring support agreement (“RSA”) in place between the Debtors and an ad hoc group of their first lien secured creditors. As further

² The term “Debtors” is used herein for ease of reference, but only certain of the Debtors engaged in the manufacture or sale of prescription opioid medications, and only certain of the Debtors are named as defendants in the litigations and proceedings described herein.

³ In addition to the Covered Actions (defined below), the Debtors have been responding to investigative demands issued by various components of the United States Department of Justice (“DOJ”). To avoid any doubt, the Debtors in no way seek to enjoin those investigations. The Debtors reserve their rights to pursue any and all forms of relief, including injunctive relief, as to the DOJ; and the DOJ’s rights are reserved with respect to opposing any such relief that may be sought by the Debtors.

described in the Debtors' First Day Declaration,⁴ the RSA contemplates the Debtors' consensual use of hundreds of millions of dollars of cash collateral to fund the Chapter 11 Cases, and provides the Debtors the opportunity to continue through a court-supervised sale process the value-maximizing restructuring and sale process they commenced prepetition. The Debtors believe a successful sale and reorganization can be achieved, but that outcome may be jeopardized in the absence of a uniform stay of litigation of the Covered Actions to prevent the erosion of the Debtors' estates and to provide the Debtors with the breathing spell necessary to execute upon the RSA and continue ongoing discussions with stakeholders in furtherance of an orderly resolution of the Chapter 11 Cases.

3. The Debtors are currently defendants in more than 3,100 civil actions pending in state and federal courts around the country related principally to their historical alleged sale and marketing practices for their prescription opioid medications (the "Opioid Actions"). In recent years, the overhang of the Opioid Actions has impacted nearly every aspect of the Debtors' business and operations, and has placed significant burdens upon the Debtors' leadership and key employees, diverting their time and focus away from day-to-day operations, their core responsibilities, and other strategic initiatives. The economic impact also has been substantial: the Debtors incurred expenses of more than \$136 million in 2021, and \$32.7 million in the first quarter of 2022 in connection with opioid-related legal matters.

4. In August 2022, the Debtors reached an agreement in principle with a Multi-State Executive Committee comprising the states of Maine, Massachusetts, New Hampshire, Pennsylvania, Tennessee, Vermont and Virginia (the "State AG Committee") regarding a set of

⁴ Declaration of Mark Bradley in Support of Chapter 11 Petitions and First Day Papers [Docket No. 38] (the "First Day Declaration").

consensual injunctive terms that will govern the Debtors' opioid-related conduct during these Chapter 11 Cases (the "Voluntary Operating Injunction"), effectively addressing and prohibiting any allegedly harmful conduct by the Debtors of the type alleged in the Covered Actions.⁵ At least 36 states, as well as the Opioid Plaintiffs Executive Committee formed in connection with the nationwide opioid multi-district litigation proceedings (the "PEC"), have indicated their support for the entry of the Voluntary Operating Injunction against the Debtors for those purposes.

5. The supporting governmental units also have agreed to voluntarily suspend the prosecution of their own Covered Actions against the Debtors. However, there remain thousands of additional pending Covered Actions brought by cities, municipalities, and other state subdivisions that have not indicated their support. Historically, at any given time, there have been dozens of Covered Actions actively being litigated against the Debtors. Absent the requested injunction, the Debtors may be compelled to continue litigating the currently active actions. For example, on September 1, 2022, the State of Oregon informed the Debtors that it was taking the position that its Covered Action is not subject to the automatic stay, and that it will promptly proceed with its own pending litigation against the Debtors without seeking any leave or guidance from this Court. The Debtors also face the risk that additional pending actions may become active at any time.

6. Now, the Debtors' leadership and key employees will be tasked with driving the Debtors to a value-maximizing sale process, managing the Debtors' post-petition day-to-day business operations and financial affairs, taking on the additional responsibilities of navigating a

⁵ The Debtors also have been supportive of the negotiations between the Ad Hoc First Lien Group, on the one hand, and the State AG Committee and the PEC, on the other hand, with respect to the potential establishment of a Voluntary Opioid Trust by the Stalking Horse Bidder (to be formed by the Ad Hoc First Lien Group), as reflected in the RSA and related term sheet, that may result in the provision of \$550 million in value to opioid plaintiffs in exchange for the consensual release of their opioid-related claims, and also may resolve a number of complex issues in these Chapter 11 Cases. [First Day Decl. ¶ 81.] See Restructuring Support Agreement, Ex. E.

public company through the chapter 11 process, and continuing to progress their ongoing discussions with stakeholders in pursuit of an orderly resolution of the Chapter 11 Cases. If the sale process contemplated by the RSA is to be successful, it will happen only because the Debtors' leadership and key personnel are able to devote their substantial time, focus, and attention to that process rather than the continuing distraction of the Opioid Actions.

7. The automatic stay of litigation provided by the Bankruptcy Code affords debtors the breathing spell necessary to preserve and maximize value through chapter 11 proceedings and centralizes disputes in the bankruptcy court. *See* 11 U.S.C. § 362(a); *see also Shugrue v. Air Line Pilots Ass'n, Int'l (In re Ionosphere Clubs, Inc.)*, 922 F.2d 984, 989 (2d Cir. 1990) (the automatic stay allows "the bankruptcy court to centralize all disputes concerning property of the debtor's estate in bankruptcy court so that reorganization can proceed efficiently, unimpeded by uncoordinated proceedings in other arenas"). Certain of the Opioid Actions have been brought by individuals and other private plaintiffs. There is no doubt that those actions are subject to the automatic stay, and they therefore are not the subject of this Complaint.

8. The vast majority of the Opioid Actions, however (more than 80%), have been brought by the Governmental Defendants. These are the Covered Actions subject to this Complaint. The Governmental Defendants may assert that the Covered Actions are excepted from the automatic stay pursuant to 11 U.S.C. § 362(b)(4) (the "Police Powers Exception"). The Debtors dispute that contention, but do not have the resources, time, or practical ability to litigate the scope and application of the automatic stay on a case-by-case, claim-by-claim basis for hundreds (or thousands) of the Covered Actions. Accordingly, the Debtors seek to enjoin the Covered Actions for a period of 270 days pursuant to section 105(a) of the Bankruptcy Code to allow them the breathing spell the automatic stay contemplates.

9. Absent the injunctive relief sought in this Complaint, the Debtors and their cases could be mired in intractable bankruptcy and non-bankruptcy litigation from the outset, with litigation costs potentially eroding the Debtors' estates while the Debtors' leadership and key personnel could be forced to devote their substantial time and focus to the Covered Actions rather than a restructuring that is designed to preserve and maximize value for stakeholders.

JURISDICTION AND VENUE

10. This Court has jurisdiction to consider this matter pursuant to 28 U.S.C. §§ 157 and 1334, and the *Amended Standing Order of Reference M-431*, dated January 31, 2012 (Preska, C.J.). This is a core proceeding pursuant to 28 U.S.C. § 157(b) and Rule 7008 of the Bankruptcy Rules. Venue is proper before the Court pursuant to 28 U.S.C. §§ 1408 and 1409.

11. The Debtors confirm their consent to the entry of a final order by the Bankruptcy Court in connection with this Complaint to the extent that it is later determined that the Bankruptcy Court, absent consent of the parties, cannot enter final orders or judgments in connection herewith consistent with Article III of the United States Constitution.

THE PARTIES⁶

12. The Plaintiffs are the Debtors in the above-captioned Chapter 11 Cases.

13. The defendants in this adversary proceeding are the Governmental Defendants defined above – *i.e.*, the governmental entities and units including but not limited to states, counties, cities, municipalities, public hospitals, school districts, and Native American tribes, that are plaintiffs in the underlying Covered Actions brought against the Debtors. The

⁶ The Debtors reserve the right to amend or supplement this Complaint to add defendants, actions, or claims – whether currently pending or newly filed – as the Debtors deem necessary in connection with their Chapter 11 Cases.

Governmental Defendants are identified in the caption of this Complaint and are also identified on Exhibit A to this Complaint (along with the Covered Actions subject to the requested injunction).

FACTUAL BACKGROUND

14. On August 16, 2022 (the “Petition Date”), the Debtors filed voluntary petitions in this Court commencing the Chapter 11 Cases. The Debtors continue to manage and operate their businesses as debtors-in-possession pursuant to sections 1107 and 1108 of the Bankruptcy Code. No trustee or examiner has been requested in the Chapter 11 Cases.

I. The Debtors’ Business

15. The Debtors include leading pharmaceutical companies and manufacturers of pharmaceutical products. The Debtors have four principal operating segments: branded pharmaceuticals, sterile injectables, generic pharmaceuticals, and international pharmaceuticals. Additional information about the Debtors, including their business operations, their corporate and capital structure, and the events leading to the commencement of the Chapter 11 Cases, is set forth in the First Day Declaration filed on the main docket for the Chapter 11 Cases. The First Day Declaration is incorporated herein by reference.

II. The Opioid Actions

16. In 2006, after obtaining approval from the Food and Drug Administration (the “FDA”), certain Debtors began selling the prescription opioid medications Opana[®] (immediate release oxymorphone hydrochloride) and Opana[®] ER (extended release oxymorphone hydrochloride) (Opana, together with Opana ER, the “Opana Medications”). Certain Debtors also manufacture and/or sell certain other branded and generic opioid medications.

17. Since 2014, numerous governmental and private parties in the U.S., including states, counties, cities, towns, municipalities, public hospitals, school districts, Native American tribes, third-party payers, health systems, unions, individuals, and other plaintiffs have

filed multiple thousands of lawsuits against certain of the Debtors,⁷ seeking to hold them liable in connection with claims and causes of action principally arising out of or related to their alleged historical marketing and/or distribution practices relating to prescription opioid medications, including but not limited to the Opana Medications. Although certain of these lawsuits have been voluntarily dismissed or otherwise resolved as to the Debtors, more than 3,100 suits remained pending against one or more Debtors as of the Petition Date.⁸ Historically, at any given time, there have been dozens of Covered Actions actively being litigated against the Debtors.

18. The majority of the Covered Actions (approximately 2,200) have been coordinated in an ongoing multidistrict litigation, *In re National Prescription Opiate Litigation*, No. 1:17-md-02804 (N.D. Ohio filed Dec. 12, 2017) (the “Opioid MDL”). Approximately 360 of the Covered Actions are not part of the Opioid MDL, and they are pending in other federal and state courts across the country. The Covered Actions are in various stages of motion practice, discovery, and trial preparation, and at any given time there may be dozens of Covered Actions actively being litigated against the Debtors.

19. The Covered Actions are generally premised on allegations that the defendant Debtors, among others, made misrepresentations and/or omissions in connection with

⁷ The Debtor-defendants named in the U.S. Opioid Actions include Endo International plc; Endo Health Solutions Inc.; Endo Pharmaceuticals Inc.; Par Pharmaceutical, Inc.; Par Pharmaceutical Companies, Inc.; Endo Generics Holdings, Inc.; Vintage Pharmaceuticals, LLC; Generics Bidco I, LLC; DAVA Pharmaceuticals, LLC; and Par Sterile Products, LLC.

⁸ There are also approximately eight opioid-related actions pending against certain Debtors in Canada (the “Canadian Actions”). The Canadian Actions are brought by both governmental and private parties, and raise similar allegations and causes of action as the Opioid Actions pending in the United States. Debtor Paladin Labs Inc., on its own behalf and as foreign representative of Debtor Paladin Labs Canadian Holding Inc. (collectively, the “Canadian Debtors”), obtained recognition in Canada of the Canadian Debtors’ chapter 11 cases pursuant to an Initial Recognition Order of the Ontario Superior Court of Justice (Commercial List) (the “Canadian Court”) dated August 19, 2022. The Canadian Court also granted a Supplemental Order dated August 19, 2022 that includes a stay of the Canadian Actions against the Canadian Debtors and the other Debtors that are defendants in the Canadian Actions. Accordingly, the Debtors do not currently seek an injunction regarding the Canadian Actions.

their sale and/or marketing of prescription opioid medications, and/or failed to take adequate steps to identify and report suspicious orders and to otherwise prevent abuse and diversion. The various claims asserted in the Covered Actions include, without limitation, statutory and/or common law claims for public nuisance, alleged violations of consumer protection or unfair trade practices laws, racketeering, fraud and negligence, among other claims.

20. The Governmental Defendants generally seek various monetary remedies including, without limitation, compensatory, punitive and/or treble damages, abatement, restitution, disgorgement, civil penalties, attorneys' fees, costs and other relief. While certain of the Governmental Defendants also seek some form of injunctive relief, those requests are generally ancillary to the monetary claims and are based substantially upon allegations of historical (*i.e.*, not current or ongoing) alleged misconduct.

21. In 2016, the Debtors voluntarily ceased promoting the Opana Medications and all other opioid products to healthcare providers in the U.S.; eliminated their entire U.S. pain salesforce; and discontinued the research and development of new opioid products. In 2017, at the request of the FDA, the Debtors voluntarily removed Opana® ER from the market. The Debtors have not sold Opana® ER since August 2017 and have not sold any Opana Medications since June 2019.

22. Shortly before the Petition Date, Debtors reached an agreement in principle with the State AG Committee⁹ regarding the terms of the Voluntary Operating Injunction,

⁹ The State AG Committee currently is comprised of seven states (Maine, Massachusetts, New Hampshire, Pennsylvania, Tennessee, Vermont, and Virginia) that act as a steering committee and evaluate, in the first instance, strategic options and implement strategies in connection with opioid-related claims against the Debtors for certain state Attorneys General that have not otherwise resolved their state's claims against the Debtors as of the commencement of the Chapter 11 Cases (collectively with the members of the State AG Committee, the "Non-Settling States"). The name and address of each of the Non-Settling States is set forth in the *Verified Statement of the Multi-State Endo Executive Committee Pursuant to Bankruptcy Rule 2019* [Dkt. No. 125] and the
(*cont'd*)

effectively addressing and prohibiting any allegedly harmful conduct by the Debtors of the type alleged in the Covered Actions. At least 36 states,¹⁰ as well as the PEC, have indicated their support for the entry of the Voluntary Operating Injunction against the Debtors for those purposes. The Debtors, in motion papers filed contemporaneously with this Complaint, will seek the simultaneous entry by the Court of (i) the Voluntary Operating Injunction against the Debtors and (ii) a preliminary injunction against the non-consenting Governmental Defendants, enjoining the prosecution of their Covered Actions.

23. The Debtors also have been supportive of the negotiations between the Ad Hoc First Lien Group, on the one hand, and the State AG Committee and the PEC, on the other hand, with respect to the potential establishment of a Voluntary Opioid Trust by the Stalking Horse Bidder (to be formed by the Ad Hoc First Lien Group), as reflected in the RSA and related term sheet, that may result in the provision of \$550 million in value to opioid plaintiffs in exchange for the consensual release of their opioid-related claims, and also may resolve a number of complex issues in these Chapter 11 Cases. [First Day Decl. ¶ 81.] *See Restructuring Support Agreement, Ex. E.*

Amendment To Verified Statement Of The Multi-State Endo Executive Committee Pursuant To Bankruptcy Rule 2019 [Dkt. No. 141].

¹⁰ The Debtors understand that the State AG Committee initially solicited support for the Voluntary Operating Injunction from 40 states (and have obtained support from at least 36 states) that had not previously reached their own prepetition settlements with the Debtors. Those prepetition settlements are at various stages of performance and completion. Certain of the settlements are fully performed, with settlement payments made prior to these Chapter 11 Cases. Certain of the settlements are not yet fully performed, and settlement payments were not made prior to the commencement of these Chapter 11 Cases. Accordingly, the mere fact that certain of the Governmental Defendants entered into their own separate settlements with the Debtors before the commencement of these Chapter 11 Cases does not mean that those Governmental Defendants will support the Voluntary Operating Injunction or the preliminary injunctive relief sought by the Debtors to enjoin the Covered Actions.

24. In the eight years since the first opioid suit was filed against any of the Debtors: no verdicts have been rendered against any Debtor on the merits;¹¹ there have been around a dozen settlements that did not include any admission of wrongdoing, fault or liability of any kind; and the one case that did reach judgment on the merits was decided in the Debtors' favor on all counts, including on claims of public nuisance, unfair competition, and false advertising. *See People of California v. Purdue Pharma L.P., et al.*, Case No. 30-2014-00725287-CU-BT-CXC (Nov. 1, 2021).

III. Impact Of Opioid Actions On The Debtors' Estates And Resources

25. The Debtors' direct and indirect costs associated with litigating and resolving the Opioid Actions are immense. To date, the Debtors estimate they have incurred expenses of more than \$340 million in defending against the Opioid Actions and made payments of approximately \$242 million in connection with seven opioid-related settlements.¹²

26. In 2021, the Debtors incurred expenses of more than \$136 million in connection with opioid-related legal matters. This is in addition to incurred expenses of approximately \$67.8 million in 2020 and approximately \$65.3 million in 2019 in connection with such matters. In the three months ended March 31, 2022, the Debtors incurred expenses of \$32.7

¹¹ In *Staubus v. Purdue Pharma, L.P.*, No. C-41916, slip op. (Tenn. Cir. Ct. Apr. 6, 2021), a Tennessee trial court entered a default judgment in the plaintiffs' favor on liability against Debtors Endo Health Solutions Inc. and Endo Pharmaceuticals Inc. as a sanction for alleged discovery-related violations. *See id.* at 27-28. On August 4, 2021, the Endo defendants entered into a settlement agreement resolving all opioid-related claims that were or could have been asserted by the *Staubus* plaintiffs, whether in the *Staubus* litigation or elsewhere. The settlement did not include any admission of wrongdoing, fault or liability of any kind. In February 2022, the court in *Dunaway, et al. v. Purdue Pharma, L.P., et al.* (now known as *Bedford County, et al. v. AmerisourceBergen Drug Corp., et al.*), a case pending in the Circuit Court for Cumberland County, Tennessee, entered an order imposing certain sanctions, including a default judgment on liability, against Endo Pharmaceuticals Inc. and Endo Health Solutions Inc. based on the same alleged discovery improprieties implicated in the *Staubus* case. In April 2022, the Tennessee Court of Appeals reversed the trial court's order denying disqualification of the trial court judge, vacated the sanctions order, and remanded the case for reassignment to a different judge.

¹² In addition to the settlements described above, prior to the Petition Date the Company entered into five additional settlement agreements that have not been paid; collectively, these agreements provide for settlement payments totaling \$77.5 million.

million in connection with such matters. During the period from 2019-2021, the Debtors estimate that more than 70% of their opioid-related incurred legal expenses were attributable to litigation commenced by governmental entities.

27. The Debtors' prepetition forecasts for the third and fourth quarters of 2022 included projected legal expenses of approximately \$29 million and \$30 million, respectively, for all opioid-related legal matters. Assuming the share of the Debtors' opioid-related legal expenses associated with the governmental actions remains consistent with recent historical trends – and depending upon which Governmental Defendants seek to continue the prosecution of their own actions – the costs to the Debtors of litigating the Covered Actions in the absence of an injunction could be a significant drain on the Debtors' estates.

28. Moreover, in addition to the impact on the Debtors' legal and financial resources, in recent years the Opioid Actions have impacted nearly every aspect of the Debtors' business and operations, and have placed significant burdens upon the Debtors' leadership and key employees, diverting their time and focus away from day-to-day operations, their core responsibilities, and strategic initiatives.

29. For example, over the last year, the Debtors estimate that Blaise Coleman, Chief Executive Officer, Mark Bradley, Chief Financial Officer, and Matthew Maletta, Chief Legal Officer, have each spent, on average, nearly an entire working day per week addressing issues arising from the ongoing litigation of the Opioid Actions.

30. The Debtors also have suffered significant diversion of personnel and resources in connection with defending against or otherwise addressing the Opioid Actions. In addition to the commitment of time and focus from the Debtors' board of directors, leadership,

and key personnel, that effort requires numerous of sets of lawyers, experts, and other professionals who must work with and take direction from the Debtors.

31. For instance, over approximately the last six months, the Debtors' counsel have prepared for and taken or defended dozens of depositions (including multiple depositions of the Debtors' current or former employees) and worked with multiple experts in connection with their reports and testimony. The Debtors have argued and briefed several dozen motions including dispositive motions to dismiss and for summary judgment, discovery-related motions, expert-related motions and a variety of other motions related to the inevitable disputes that arise in any high-stakes litigation. Over that same time period, the Debtors have produced hundreds of thousands of documents from dozens of custodians in actions where discovery already was ongoing and in actions where the discovery process has recently started; and the Debtors have drafted and responded to numerous sets of written discovery addressing hundreds of individual requests. To date, the Debtors have produced more than 6.5 million documents in the Opioid MDL totaling more than 26 million pages of material.

32. In addition to the Debtors' counsel, members of the Debtors' leadership team and key employees have been required to commit their time and focus to review, comment upon, and collaborate with the litigation counsel on all of these matters. Further, the time and attention of the Debtors' board of directors and leadership team has been diverted to evaluating high-level strategic alternatives and defense strategies, engaging in settlement discussions, and considering potential broad-based resolutions for the Opioid Actions. As a result, the Opioid Actions have contributed to the increasing frequency of Board-level meetings as well as informal updates at all levels of the company.

33. Moreover, several recent developments ensure that the Debtors could continue to expend substantial resources litigating the Covered Actions absent an injunction. These include: (i) major settlements recently achieved by other co-defendants in the Opioid Actions which have shifted and would continue to shift even more of the legal work and expense onto the remaining defendants; (ii) a recent Sixth Circuit decision which has resulted in, and is likely to continue to result in, the remand of multiple Covered Actions from the Opioid MDL back to their originating courts (*see In re: Harris County, Tex., et al., Petitioners*, No. 21-3637 (6th Cir. Mar. 11, 2022)); and (iii) a ruling by the Judicial Panel on Multidistrict Litigation that new opioid cases filed in or removed to federal court will no longer be transferred to the Opioid MDL (*See In re Nat'l Prescription Opiate Litig.*, 3:21-cv-00246 (J.P.M.L. Apr. 8, 2022)). Historically, at any given time, there have been dozens of Covered Actions actively being litigated against the Debtors. Absent the requested injunction, the Debtors may be compelled to continue litigating the currently active actions. The Debtors also face the risk that additional pending actions may become active at any time.

NEED AND SUPPORT FOR THE REQUESTED RELIEF

34. Section 105(a) of the Bankruptcy Code authorizes the court to “issue any order, process, or judgment that is necessary or appropriate to carry out the provisions of [the Code].” 11 U.S.C. § 105(a). The Second Circuit has not explicitly established the standard for reviewing a preliminary injunction issued under Section 105 of the Bankruptcy Code.

35. Some courts evaluating a preliminary injunction under Section 105(a) in the context of bankruptcy proceedings have utilized a modified version of the traditional Rule 65 four-factor test for obtaining injunctive relief: (1) whether there is a reasonable likelihood of successful reorganization; (2) whether there would be imminent harm to the estate and the bankruptcy process in the absence of an injunction; (3) whether the balance of harms weighs in favor of the injunction;

and (4) whether the public interest weighs in favor of the injunction. Other courts evaluating a preliminary injunction in the context of bankruptcy proceedings recognize that because injunctions under Section 105(a) are authorized by statute, they need not comply with traditional requirements of Rule 65. Thus, the court also may enjoin proceedings in other courts where it is satisfied that those proceedings would defeat or impair its jurisdiction with respect to the case before it, including if the proceedings would interfere with, impede, or threaten the bankruptcy case. Here, under either standard, the requested injunction is appropriate.

I. There Is A Reasonable Likelihood Of A Successful Reorganization

36. After months of negotiations with stakeholders, the Debtors entered these Chapter 11 Cases with a binding RSA that provides the opportunity to reorganize through a value-maximizing and court-supervised sale process that the Debtors commenced prepetition, and also provides for the Debtors' consensual use of hundreds of millions of dollars of cash collateral to fund their ongoing operations during the Chapter 11 Cases.

37. A critical element of the stalking horse bid proposed in connection with the RSA is the establishment of substantial post-sale wind-down funding of more than \$120 million. With the benefit of the requested injunction and post-sale funding, during and after the sale process the Debtors will have the ability to expand their ongoing negotiations with stakeholders in pursuit of an orderly resolution of these Chapter 11 Cases. The funding also ensures that the Debtors will retain the ability to litigate or otherwise resolve issues, as necessary, to drive constituencies toward consensus and resolution of the Chapter 11 Cases.

38. The Debtors also will seek appointment of a Future Claims Representative to represent future unknown claimants during negotiations with the Debtors and other stakeholders in the Chapter 11 Cases.

39. The Chapter 11 Cases provide a centralized forum and collective action process well-situated to address the thousands of actions implicated by this Complaint. The entry of an injunction providing a uniform stay of litigation would place all creditors on a level playing field and promote negotiation and collective resolution.

40. The Debtors believe a successful sale and reorganization can be achieved if they are able to devote their resources to executing upon the RSA and continuing their ongoing discussions with stakeholders in furtherance of an orderly resolution of the Chapter 11 Cases.

II. Absent An Injunction, The Debtors And The Bankruptcy Process Will Suffer Irreparable Harm And The Court's Jurisdiction Will Be Impaired

41. In the absence of an injunction, the Debtors, their estates, and their reorganization efforts will be irreparably harmed and the Court's jurisdiction will be impaired. The Debtors could be drawn immediately into expensive and time-consuming litigation within the Chapter 11 Cases to decide, on a case-by-case basis, the applicability of the automatic stay and they would face the prospect of the Covered Actions around the country continuing unimpeded. Untold millions of the estates' liquidity could be irretrievably squandered rather than being preserved for the Debtors' stakeholders or utilized to advance the Debtors' restructuring efforts. Additionally, discovery and litigation could again become a predominant focus – pulling critical resources and institutional knowledge away from the Debtors' Chapter 11 Cases and restructuring process when it is most needed.

42. During the Chapter 11 Cases, the Debtors' leadership and key employees will be tasked with driving the Debtors to a value-maximizing sale process, managing the Debtors' post-petition day-to-day business operations and financial affairs, taking on the additional responsibilities of navigating a public company through the chapter 11 process, and continuing to progress their ongoing discussions with stakeholders in furtherance of an orderly resolution of

these Chapter 11 Cases. If the sale process contemplated by the RSA is to be successful, it will happen only because the Debtors' leadership and key personnel are able to devote their substantial time, focus, and attention to that process rather than the distraction of the Covered Actions.

43. If even one of the Governmental Defendants were allowed to continue prosecuting its Covered Action, then others would likely feel compelled to press forward with their own actions rather than be left behind. Piecemeal liquidation of the claims in non-bankruptcy forums could take years, would frustrate the collective negotiation and resolution process provided by the bankruptcy forum, and could jeopardize the Debtors' viable path out of these Chapter 11 Cases.

III. The Balance Of Harms Weighs In Favor Of An Injunction

44. The balance of harms weighs in favor of an injunction. The injunction will ensure a uniform stay of litigation placing all creditors on the same footing, and avoiding the piecemeal prosecution of the Covered Actions nationwide. Even if the plaintiffs in the Covered Actions were able to reduce their monetary claims to judgments, those judgments could not be enforced against the Debtors other than through the bankruptcy claims process.

45. Further, to the extent any Covered Actions implicate alleged enforcement or other non-monetary concerns, that relief is generally ancillary to monetary claims and is based substantially upon allegations of historical (*i.e.*, not current or ongoing) alleged misconduct. Before commencing their Chapter 11 Cases, the Debtors already had voluntarily ceased promoting opioid medications to healthcare providers in the U.S.; ceased all sales of the Opana Medications; eliminated their U.S. pain medication salesforce; and discontinued the research and development of new opioid products.

46. Critically, the Debtors and the State AG Committee have agreed to the terms of a Voluntary Operating Injunction that will govern the opioid-related conduct of the Debtors

during these Chapter 11 Cases, effectively addressing and prohibiting any allegedly harmful conduct by the Debtors of the type asserted in the Covered Actions.

47. Notably, the Debtors do not seek to enjoin the Governmental Defendants' claims against non-debtor third parties. The relief sought will simply ensure the Debtors a uniform stay of litigation. The Governmental Defendants will not be irreparably harmed if this Court grants the requested 270-day injunction.

IV. Public Interest Weighs In Favor Of An Injunction

48. The Debtors entered these Chapter 11 Cases with an RSA and framework in place to preserve the value of their estates, to provide funding for these Chapter 11 Cases and the Debtors' ongoing operations, and to provide creditors with a transparent restructuring process. Additionally, the Debtors have been supportive of the potential establishment of a Voluntary Opioid Trust. The public interest weighs in favor of an injunction that will allow the Debtors to maximize value in the sale process contemplated by the RSA and to continue the active ongoing discussions between and among the Debtors and their stakeholders toward an orderly resolution of the Chapter 11 Cases.

49. On the other hand, the continued prosecution of the Covered Actions could drain the Debtors' estates, impede the Debtors' ability to maximize value for stakeholders, and sabotage the collective forum provided by the bankruptcy court. This would not serve the public interest or the interests of the Debtors' stakeholders.

50. For these reasons, the public interest weighs in favor of the requested injunctive relief.

CLAIMS FOR RELIEF

COUNT ONE

**(Injunction Staying the Covered Actions Pursuant to
Sections 105(a) and 362 of the Bankruptcy Code)**

51. The Debtors repeat and re-allege the allegations contained in the preceding paragraphs of this Complaint as if fully set forth herein.

52. A Bankruptcy Court may “issue any order, process, or judgment that is necessary or appropriate to carry out the provisions of [the Bankruptcy Code].” 11 U.S.C. § 105(a).

53. A Bankruptcy Court may, in its discretion, issue injunctive relief under section 105 of the Bankruptcy Code in order to restrain activities that threaten the reorganization or restructuring process or impair the court’s jurisdiction with respect to the case before it.

54. There is a reasonable likelihood of a successful reorganization and restructuring process. The Debtors are substantially more likely to reorganize with the requested injunction in place.

55. Absent the requested injunction, the continued prosecution of the Covered Actions will cause the Debtors and their reorganization efforts to suffer immediate, irreparable harm.

56. The balance of hardships weighs in favor an injunction, as the irreparable harm to the Debtors, their estates, and the restructuring process that would result from the denial of an injunction outweighs any potential harm to the Governmental Defendants attributable to a modest delay in the prosecution of the Covered Actions.

57. The requested injunctive relief will serve the public interest by allowing this Court to retain its exclusive jurisdiction over the Chapter 11 Cases and the Debtors’ estates, by

providing creditors with a transparent restructuring process, and by promoting a value-maximizing sale and reorganization process for stakeholders.

58. Absent the requested injunction, the continued prosecution of the Covered Actions would impair this Court's jurisdiction with respect to these Chapter 11 Cases.

59. Injunctive relief pursuant to section 105 of the Bankruptcy Code enjoining the Covered Actions against the Debtors for a period of 270 days is necessary and appropriate under the present circumstances.

60. No prior application for the relief requested herein has been made to this Court or any other court.

PRAYER FOR RELIEF

WHEREFORE, the Debtors respectfully request that this Court enter judgment in their favor and request relief as follows:

- (a) enjoin the Governmental Defendants from the commencement or continuation of their active judicial, administrative, or other actions or proceedings against the Debtors that were or could have been commenced before the commencement of these Chapter 11 Cases, which are identified in Exhibit A to this Complaint, as well as the commencement or continuation of any other actions against the Debtors alleging substantially similar facts or causes of action as those alleged in the Covered Actions, if not otherwise subject to the automatic stay imposed by section 362 of the Bankruptcy Code, for a period of 270 days from the issuance of the injunction; and
- (b) all such other relief as the Court finds just and equitable.
